

EHG Transfer

Flexible ductwork for dust and other fine particulate collection. Transfer components are joined easily with a gasketed tension clamp. It's disassembled just as easily! Cleaning and inspection is simple with EHG Transfer. In fact, these parts can be relocated and reused if necessary.

The duct system is suitable for:

- Particle transportation from woodworking, such as saw mills, carpenters, furniture manufacturers and craft workshops
- Comfort ventilation
- Extraction systems for better working environment
- Plasma cutters
- Specially designed ventilation plants where you have extra demands for form, color and appearance
